DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Flora, 5,343,417.

Flora's Figs. 3A-3F clearly show an adder circuit for summing a plurality of addends (the a and b terms) from multi-bit words comprising a network of n-input carry-save adder circuits (the FAs) with the adder circuits arranged in columns and levels wherein the number of n-input adders in each column varies according to the bit position. Relative to the further input adders of claim 10 note the HAs of Flora.

Claim Rejections - 35 USC § 112

3. Claims 8, 15 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 2 of claim 8 "two", two occurrence, should to "one" because n is three. In line 3 of claim 15 "first" should be "second". Claim 20 is clearly vague and indefinite and it fails to comply with U.S. practice.

Art Unit: 2193

Allowable Subject Matter

4. Claims 13, 14 and 16-19 are allowed.

Conclusion
